About Acacia

Acacia approaches every room with the simple thought - *'how does this space make people feel?'* The root of everything she does in life and design is empathy. Getting to know what a client and their guests truly want and how they will most enjoy their home is key to her process.

As a design enthusiast and antique treasure hunter, she fine tuned her own personal style to now guide others in their journey towards an idyllic home.

Curating serene spaces with natural and effortless pieces to create the perfect **Abode**.
